

Addendum 2 (a)

MEMORANDUM TO: Dr. Paul Hamosh

DATE: July 17, 1975

THROUGH:

, Chairman, Department of

FROM: Clifton K. Himmelsbach, M.D.
Secretary, Research Committee

SUBJECT: Action on your request for approval of a
proposal involving research on man

I am pleased to report that your proposal entitled,

"The Effect of Smoking on Lung Development"

was recommended for approval by the Research Committee on
5 / 15 / 75, and approved by the Executive Faculty on 5 / 23 / 75
with the understanding that:

1. the approval is contingent on your acceptance of
the following modifications in your protocol:

--that parental consent be obtained since the

subjects are to be High School students in the age
range 12-14 years and provision be made to protect
and identity of the participating subjects.

2. you will seek and obtain prior approval for any
substantive modification in the approved protocol.
3. you will report promptly any unexpected or other-
wise significant adverse effects encountered in
the course of this study.
